A Green Solutions Company™

All Applications - Organic Bio-Stimulants

Great 8 or Turf Pro or Turf Pro Plus - Use throughout the year to combat salt buildup, loosen soils, promote organic activity and promote nutrient uptake. Turf Pro Plus has added iron for added greening.

All Applications - 100% Organic

Mega Green 2-3-1 - Virtually odor free fish product rich in amino acids which enhance plant health

Turf - Organic Base Liquid Fertilizers

Harmony Plus 18-3-4 - High N formula with iron for good greening and moderate growth. Balanced P and K for root growth and plant strength.

Blitz Plus 22-0-0 - Higher N formula with iron for good greening and moderate growth to provide additional nitrogen to meet the added demand in hot conditions. Do not use full time by itself because of the lack of P and K will result in weaker plant material.

Flowers, Trees, Shrubs and Turf - Organic Base Liquid Fertilizers

Harmony 6-2-6 - Great cool season N for turf and balanced P and K for good plant health for the total landscape. Does not have high enough N to meet the N demands of turf in the warm and hot seasons.

Harmony Plus 18-3-4 - High N with high iron to meet the warm and hot N demands from turf with only moderate growth. P and K support for total plant health for the entire landscape.

Flowers, Trees, Shrubs and Turf – Synthetic Water Soluble Fertilizers

10-20-30 - Great cool season N with high P and K for good plant health. Not enough N for warm and hot seasons.

25-15-10 - Great balanced blend for the warm and hot season for the entire landscape.

28-8-18 - High N for the hot season high N demand of turf with P and K support for plant health.

Controls and Supplements

EZ Organic Critter Control - Repels gophers, deer, rabbits, moles, voles and some types of birds. Topical repellent, not systemic

EZ Super Cal - Calcium supplement strengthens cell tissue

EZ Liquid Gypsum - Loosens compacted soils

ProKill Insect Control - Controls all insects, topical control, not systemic

ArkPro Odor Control - Controls the smell of decomposing animal waste
